Professional Summary

Entry-level Data Analyst with hands-on experience building SQL, Python, Excel, and Power BI projects. Skilled in data cleaning, ETL, dashboard development, and business reporting. Passionate about transforming raw data into actionable insights and continuously improving analytical skills.

Education

- **Master of Computer Application** - IGU University, Rewari, Meerpur (2023-2025)
- **Bachelor of Science (Computer Science)** – IGU University, Rewari, Meerpur (2018-2021)

Professional Experience

Data Analyst – ZillionsofTech

- Formulated complex SQL queries utilizing JOINS, CTEs, and Window Functions to extract and analyze transactional business data.
- Engineered interactive Power BI and Excel dashboards using custom DAX measures and Power Query to track core business KPIs.
- Preprocessed, cleaned, and normalized multi-source datasets using Python (Pandas) and Power Query to ensure data accuracy.
- Delivered structured visual reports and automated data workflows to support routine management decision-making.

Technical Skills

- **SQL:** JOINS, Subqueries, GROUP BY, HAVING, CTEs, Window Functions, Database Views
- **Power BI:** Data Modeling, Custom DAX Measures, Power Query, KPI Reports, Interactive Dashboards
- **Python:** Pandas, NumPy, Matplotlib, Data Cleaning, Exploratory Data Analysis (EDA), CSV Handling
- **Excel:** Pivot Tables, XLOOKUP, INDEX-MATCH, Power Query, Conditional Formatting, Data Validation
- **Tools & Analytics:** Git, GitHub Pages, VS Code, ETL, Data Visualization, Business Reporting

AI Tools

- Quadratic AI
- Formula Bot
- Data Squirrel AI
- Julius AI
- Claude AI

Key Achievements

- Built **7+ Data Analytics Projects** using Excel, SQL, Power BI, and Python.
- Developed interactive dashboards for Sales, HR, Finance, E-Commerce, and ERP datasets.
- Created a personal portfolio website to showcase analytics projects.
- Proficient in converting raw data into actionable business insights.

Projects

- **SQL Data Analytics:** Write JOINS, CTEs, window functions and optimized queries to analyze business data and generate reports.
- **Student Management System:** Built a Python & MySQL CRUD application with normalized database design.
- **Power BI Sales Dashboard:** Created interactive dashboards with KPIs, DAX measures, revenue, profit and sales trends.
- **HR Analytics Dashboard:** Analyzed employee attrition, salary and department performance using Power BI.
- **Road Accident Dashboard:** Cleaned and analyzed 10,000+ records using Excel and Power Query; developed interactive dashboards.

Certifications

- Data Analyst Course – Zillionsofttech (Nov 2025 – April 2026)

Soft Skills

- Analytical Thinking
- Team Collaboration
- Communication Skills
- Problem Solving
- Attention to Details
- Adaptability
